NMSA Trustee

Patti Kinney, Phoenix-Talent

Dear ,

Thank you for your interest in being a corporate sponsor for Oregon Middle Level Association! As I mentioned during our phone conversation, this letter summarizes items discussed regarding OMLA and opportunities for support. Enclosed you will find a description of our different types of corporate sponsorships and an invoice to accompany payment.

OMLA is the nonprofit Oregon affiliate of the National Middle School Association (NMSA). We are responsible for fostering educational goals and practices that best meets the needs of the young adolescents. Our association works to improve communication among professionals, create professional development opportunities, and advocate for middle schoolers. I have enclosed a copy of our recent newsletter so you can familiarize yourself with the nature of our organization and note the quality of the publication we produce for our members.

In 2002, OMLA hosted the NMSA national conference with attendance of over 9000 people from across the nation and world. We conduct an annual regional conference and invite Washington and Idaho middle level professionals. We attempt to reach all schools in Oregon and we represent the children and professionals that serve them. All 575 middle level schools in Oregon receive a complimentary newsletter each quarter.

I hope this gives you the information you need. I would be more than happy to discuss this with a representative from your company. I hope you will choose to participate as a sponsor. Please contact me at _____ if you have any questions.

Sincerely,

“Together, celebrating the uniqueness of the middle level experience through advocacy and professional support.”
